About Me

Full Stack Developer with 4+ years of experience building scalable web applications using React.js, Next.js, Node.js, Express.js, TypeScript, MongoDB, and SQL. Experienced in enterprise applications, ERP systems, Microservices, REST APIs, authentication, Docker, RabbitMQ, Redis, and third-party integrations, with a strong focus on performance, security, and maintainable solutions.

Experience

Full Stack Developer, *PTCL* Jan 2026 - Present

- Integrated Microsoft Commercial Marketplace login using MSAL.js for secure Azure AD authentication in React Application
- Implemented Docker to containerize the applications
- Implemented asynchronous communication using RabbitMQ and caching mechanisms with Redis to improve performance and scalability.
- Integrated enterprise authentication and data exchange using LDAP, SCP for secure file transfers, and fethed SAP data via SOAP protocol.

Frontend | React.js Developer, *AppInSnap Pvt. Limited* August 2023 - March 2025

- Developed a Next.js application leveraging CSR, SSR, and SSG for optimized performance and SEO.
- Implemented state management using Redux Toolkit and React Context API.
- Implemented multi-role authentication and authorization to manage secure access control across applications.
- Optimized rendering performance through code splitting, lazy loading, and memoization.

Associate Frontend Developer, *DotCoder* July 2022 - August 2023

- Translate Figma design into functional web pages.
- Develop applications using reusable components ensuring clean and maintainable code.
- Integrated REST APIs using Axios and Fetch with proper async/await handling
- Used Git as a version control system
- Collaborated with a cross-functional team to ensure the timely delivery of project

Projects

Talent Aquisition System

Client: **PTCL**

Developed an enterprise career management portal that streamlines job postings, requisitions, candidate applications, recruitment workflows, and hiring processes.

Trade Based Money Laundering

Client: **JS Bank**

Trade-Based Money Laundering (TBML) is an application designed to monitor and prevent illegal financial activities that occur within international trade transactions.

Emformance

Client: **USA based client**

Emformance is an ERP that centralizes real-time data, providing a single source of truth for organizations. It empowers businesses to thrive and adapt confidently in a data-driven world.

Warehouse Management System

Client: **Finland based client**

A Warehouse Management System (WMS) is an application that automates check-in and checkout inventory and asset tracking with detailed warehouse reports.

EZTECH

Client: **Saudi Arabia based client**

Eztech is an advanced application that offers comprehensive Desktop Support and end-to-end IT Support Services, ensuring smooth, reliable, and efficient technology operations.

CDA Suvery Portal

Client: **Capital Development Authority**

CDA Survey is a platform where employees are assigned specific areas to conduct and submit structured field survey reports efficiently.

Skills and Technologies

Frontend: React.js, Redux Toolkit, JavaScript (ES6+), TypeScript, HTML5, CSS3, Sass, Ant Design, Shadcn, Bootstrap, PrimeReact, Tailwind CSS, React Query, React Router, moment, Formik, Yup, animate Crypto.js, i18next, Chart.js, swiper, Next.js

Backend | Database: Node.js, Express.js, RESTful APIs, JWT Authentication, helmet, nodemailer, prisma, sequelize bcrypt, cloudinary, multer, MongoDB, MySQL, PostgreSQL

Others: Socket.io, Stripe, Axios, Git, Swagger, Postman, OAuth, Azure AD, Google Map, Google Analytics, Docker, Redis and RabbitMQ

Education

Matric, *Fazaia Inter College*

DAE, *Government College Of Technology*

Bachelor's in Computer Science, *Virtual University Of Pakistan*
